The movement to work the Memphis-to-Bristol Highway between Crossville and Crab Orchard brought out very few workers. Not a single person who owns an automobile, with the single exception of Volner Hamby, gave any aid to the movement. The men who did turn out were mostly persons who do little or no driving on the roads. W. F. Bandy, K. L. Bibrey, J. L. Qualls, T. M. Rector, J. E. Taylor and Volner Hamby all sent men to work. The editor of the Chronicle, E. L. Lemert and G. P. Burnett turned out. Mr. Hamby ran his auto and sent lunch to the workers and sent his car to bring them home in the evening. So far as we have been able to learn no one turned out at Dorton or Crab Orchard.

Some persons who send us news occasionally and some who send it regularly fail to sign their real name along with their pen name. Any publisher who publishes news matter without knowing who the writer is runs a risk of getting into trouble and it has been the custom for many years with publishers not to publish that which was not signed by the real name of the writer. We have deviated some times from that but we wish to remind writers that they must sign their real name if they expect their matter to appear in print.
